BE PART OF THE CHANGE!

Our projects are located in the capital city Windhoek. Some of the projects are situated in central town and some of them are in the township called Katutura. All of our projects are depending on volunteers. The projects are easily reachable with transport. Public transport in Windhoek is not very well developed and the safety of public taxis are not guaranteed, that's why we work with a trustworthy transport company that will bring you from your accommodation to the projects and back.
